

CHAPTER – IX

ADVANTAGES & DISADVANTAGES

9.1 – Advantages

1. Understanding Student Eating Habits

- The project helps us understand what students eat and how often they eat certain foods using real survey data.
- It shows important trends and patterns in students' food choices.

2. Easy-to-Understand Visualizations

- Tableau dashboards present data through colorful charts and graphs.
- This makes complex information simple and easy for everyone to understand.

3. Helps in Making Better Decisions

- Students can learn about their eating habits and make healthier choices.
- Colleges can use the findings to improve cafeteria menus and nutrition programs.

4. Identifies Food and Nutrition Patterns

- The analysis reveals popular cuisines, calorie consumption, and dining habits.
- It also helps identify unhealthy eating behaviors that may affect student health.

5. Promotes Health Awareness

- Students become more aware of the importance of balanced nutrition.
- The project encourages healthier lifestyles and better overall well-being.

6. Compares Different Student Groups

Comprehensive Analysis and Dietary Strategies with Tableau: A College Food Choices Case Study

- Food choices can be compared based on factors such as age, gender, income, and exercise habits.
- This helps understand how different groups of students make dietary decisions.

7. Saves Time in Data Analysis

- Tableau organizes large amounts of data efficiently.
- It reduces the effort required for manual calculations and report preparation.

8. Useful for Academic Learning

- The project demonstrates how data visualization tools can solve real-world problems.
- It improves students' analytical, research, and presentation skills.

9. Supports Future Planning

- The insights can help colleges create effective nutrition and wellness strategies.
- It supports planning healthier food services for students.

10. Professional Reporting

- Tableau dashboards provide clear and attractive reports.
- Findings can be easily shared with teachers, researchers, and college management.
